Docket No. 98N-1265  
Food and Drug Administration

Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular,  
I OBJECT to the definition of "inordinate amount" which restricts the availability  
and the right to obtain medically necessary compounded medications by limiting  
the number of prescriptions that can be shipped across state lines from specialized  
compounding pharmacies.

COMMENTS: As a patient who uses both conventional  
and alternative medical treatments I oppose the  
draft M.O.U. Everyone is different and has different  
health needs. It is important that specialized  
pharmacies are able to continue to serve doctors  
and their patients without restrictions. Patients should  
be able to get their medication from whatever source  
and location that best serves their needs which may not be  
always possible to get locally.
